English and Drama	Maths	Science
In English, we will be reading the stories 'Old Bear' and 'Traction Man' which both focus on some very exciting toy adventures! We will also explore the features of nonfiction texts by looking at the book 'Fun things to Make and Do', 'Looking at Teddy Bears' and 'Toys'.	In Maths, we will continue to explore our understanding of number. We will look at subtraction and will be finding all the different number bonds of 10. We will practice estimating and ordering numbers. We will find 1 more and 1 less than a number.	Our topic this half term is 'Weather. We will explore the different seasons of the year and what the weather is like at these times. We will experiment by collecting rainfall and measuring wind direction. We will then explore shadows.
History and Geography		**Art and Design Technology**
In History, we will be looking at old and new toys. We will be talking about the similarities and differences. We will also look at toys from around the world as part of Geography.		In DT we will be designing, making and evaluating our own board game or card game. Nearer Christmas, in art, we will also be making a range of crafts to decorate our classroom and homes.
Music and Creative Arts	**Year 1** **Autumn 2** **Toys** **Trips/Visits: St Paul's Church Nativity experience and Christingle.**	**PSHE and British Values**
We will be listening to a range of musical compositions ad thinking about how we can respond to these. We will also be learning songs ready for our Christmas carol performance!		Our aim is to celebrate difference this half term. We will discuss the similarities and differences of different people. We will also learn about how we can express ourselves if we feel sad or upset.
Computing	**PE**	**RE**
Our topic this term will be looking at pictograms and how these can be used to show data we have gathered. We will find out what a spreadsheet looks like and then learn how to enter data into a spreadsheet cell.	In Dance we will be exploring dynamic actions and moves, developing our balance and coordination skills. We will then perform our routines to our friends. In Gymnastics, we will learn some overlapping skills but also use the floor and low apparatus to make sequences involving jumping, rolling, balancing and travelling. We will look at different levels, directions and shapes.	We will explore how light makes us feel and look at how it is used as a symbol throughout the world. We will then focus on the use of light in the festivals of Diwali, Hanukkah and Christmas.
